**Service Period - There are no additional copayments for Inpatient Hospital-Acute Services when readmitted to a contracted facility during a "service" period or within 30 days of last discharge. A "service" period starts the day you go into a hospital and ends when you go for 30 days without hospital care. If you go into the hospital after one "service" period has ended, a new "service" period begins. You must pay the inpatient hospital copayments for each "service" period. There is no limit to the number of "service" periods you can have in one year.*
